Repair and Installation Service Capabilities

Service

- We only use experienced factory-trained field service representatives.
- Full-time professional service representatives are located throughout the United States for quick response when you need them.
- Our service team is made up of 17 representatives with over 10 years of experience each!
- Our service team is available for machine installations, start-up support, emergency repairs, troubleshooting, regular maintenance, machine upgrades, and performance consultations.

Teleservice Support

- To minimize the expense of on-site service calls, we provide free troubleshooting assistance by phone.
- Our administrators are chosen for their technical knowledge, experience and desire to provide only the best customer service.
- With the assistance of your staff, we can help you diagnose and isolate problems, as well as verify your equipment is set up correctly.
- Machines equipped with modems can not only be monitored and fine tuned remotely but the operating software can also be updated if needed.
- Support is available seven days a week between the hours of 8:00 AM EST to 8:00 PM EST.

Other Services

- Hayssen offers a wide range of on-site and in-plant instruction programs that can help make your employees better and more effective machine operators and maintenance technicians.
- Hayssen offers Planned Preventative Maintenance (PPM) Programs to provide you with low cost, regular visits by a skilled Hayssen field service representative who will work with your staff to carefully assess the condition and performance of your equipment.
