

HayssenSandiacre

Coffee & Tea Packaging Systems

Key Features

- With years of experience, HayssenSandiacre continues a tradition of innovative solutions to the coffee and tea industry's evolving needs
- Wide range of VFFS machines, augers, volumetrics and combination scales provides choices in machinery to fit any coffee/tea application
- Both continuous and intermittent motion technology
- Wide range of package styles, including integrated zipper, FBB, filter packs, quad pack, doy style and valve applicators
- High speed capabilities of up to 140 ppm
- Allen-Bradley Controls standard; other control systems available
- Stepper or Servo Motor drives
- Servo or brake/clutch augers, volumetrics and scales

Barry-Wehmiller

Coffee & Tea Packaging Systems

A tremendous value and surprisingly affordable, HayssenSandiacre's coffee systems are built with a "standard of excellence," providing a rugged, durable machine that will provide decades of reliable service.

Versatility - HayssenSandiacre machines run a variety of bag styles for retail and foodservice applications. Integrated zipper (slider or press-to-close), valve applicator, filter bags, various stand-up pouches and many other bag styles and options.

Reliability - Patented (MEASURE, FORM, PULL) film advancement increases system speed and allows gentle pulling of filter paper. Built with Allen-Bradley controls, rugged, tubular frame. Quick, no-tool changeover. Single point control auger/bagmaker available.

Application Experience - Every machine is optimized for achieving maximum performance. Over bagging of filter pouches, gas flushing and gas valves. Round and Pillow shaped filter pouches.

Operator and Maintenance Friendly - Open, modular design. Refined HMI layout that utilizes established operating procedures via sound software architecture powered by Allen-Bradley platform. I/O troubleshooting from HMI screen.

Integrated Systems - Custom packaging solutions. We have extensive experience in the integration of augers, pumps, volumetrics, filter pouchers, scales and other feed systems.

Customer Support

- **Technical Support:** Free technical phone assistance, 20 factorytrained regional service engineers, full time dedicated training staff provides formal training classes in your facility or ours (bi-lingual), customized preventative maintenance programs
- **Aftermarket/Parts:** Parts availability 7 days a week, dedicated parts representatives and inventory on the "top 300" parts ensure quick turnaround

Contact HayssenSandiacre to discuss how we design and engineer your ideal packaging system.

Solid, durable construction

Various package configurations available, including flat bottom bag and recloseable zipper
