## HayssenSandiacre to Present Latest Offerings at Pack Expo 2011

GREENVILLE, S.C. — July 15, 2011 — HayssenSandiacre will present its expanding line of vertical and horizontal form/fill/seal packaging solutions at Pack Expo 2011, September 26 to 28, at the Las Vegas Convention Center in Nevada. The integration of HayssenSandiacre and Rose Forgrove in recent years has enhanced the company's combined vertical and horizontal technology for flexible packaging.

A team of professionals from HayssenSandiacre will be available in **Booth #C-500** to discuss the company's latest offerings and to help attendees identify the equipment needed to improve or expand their operations. A few of the systems HayssenSandiacre offers include:

**Ultrasonic Technology:** HayssenSandiacre and Herrmann Ultrasonics have partnered to exhibit a VFFS packaging system with ultrasonic sealing during the show. Attendees can visit the Herrmann Ultrasonics Booth #2737 to learn why ultrasonic sealing is fast becoming an advantageous technology for a variety of products. With Near 100% seal quality, the best possible reduction of "leakers" and minimized film and product waste, ultrasonic sealing is an undisputedly green technology.

**Stand-Up Packages:** Many food processors are turning to HayssenSandiacre's Novus Doy/Quad, a truly unique VFFS machine for its flexibility to run both Quad Seal and Doy Packs with an easy changeover to high speed pillow bag production. All of these package styles can be created on this one system, by easy changeover of cassette: Doy Pack, Quad Pack, Flat Bottom Bag, Tucked/Gusseted Bag and Pillow Bag.

**ULTIMA ST/SV VFFS Baggers:** HayssenSandiacre's long-standing, durable ULTIMA family offers affordable intermittent motion technology with more dwell time for better looking seals and increased packaging speeds

**RT2000/5000 Horizontal Form Fill Seal:** Available in single or dual lane, the RT Series is perfect for modified atmosphere packaging requirements, with unique long dwell for superior sealing and speeds up to 250ppm.

**Rose Forgrove Flow Wrappers:** Proven, dependable performance. The servo technology platform ensures years of efficient, cost-effective operation. Rose Forgrove's modular, open design allows for thorough sanitation and quick no-tool changeovers. The product line includes Athena, Integra, MerlinHSE and Minerva.

### About HayssenSandiacre

HayssenSandiacre has always been known for quality and innovation in packaging machinery and today is recognized as a form fill seal (FFS) technology and services leader worldwide. That reputation continues with innovative, high-speed flexible VFFS and HFFS packaging systems that accurately fill and bag thousands of food products and a wide range of other types of retail, industrial and institutional products. HayssenSandiacre is headquartered in the Greenville/Spartanburg area of South Carolina and is a part of the family of Barry-Wehmiller Companies, the largest packaging automation group in the Western Hemisphere
